Introduction

Welcome

Trifolia-on-FHIR is an editor for FHIR resources. It uses a FHIR server natively as its back-end. Any STU3-compliant FHIR server will work with Trifolia-on-FHIR.

Core Features

- Supports editing multiple types of resources
 - ImplementationGuide
 - StructureDefinition
 - ValueSet
 - CodeSystem
 - CapabilityStatement
 - OperationDefinition
- Validation - Every resource editing screen has a "Validation" tab. Validation is performed using [FHIR.js](#)
- Export
 - Always export an ImplementationGuide and all resources referenced by it
 - Export as a Bundle
 - Export via FHIR IG Publisher - builds a FHIR IG Publisher packages and runs the FHIR IG Publisher against it
- Import - any resource or transaction bundle
